## PERSONAL AND SOCIAL NOTES

### DANCING PARTY GIVEN AT THE KNOWLES' HOME ON JACKSON STREET.

An interesting dancing party was given by Miss Knowles and Miss Ruth Knowles at their home on Jackson street last evening. The house was prettily decorated and there were many guests in attendance.

Miss Knowles and her sister were assisted in receiving by Mrs. Bliss and Mrs. Adams. The whole lower floor was crowded and thrown into one, the Knowles home being one of the few adaptable to a dance.

The decorations were simple and effective, consisting principally of huckleberry and huge ferns artistically arranged. The mantel at the end of the drawing-room was massed with duchesne roses and ferns, while the window nook was arranged for an orchestra, and almost hidden in a mass of palms and greens.

Miss Oliver wore a corn colored silk mull, trimmed with lace.

Miss Anna Oliver's gown was of pink Huel cloth over taffeta, beautifully trimmed with lace.

Miss Grace Sanborn looked like a queen in a pale gray, embroidered gown cut off the shoulders.

Miss Jessie Palmer wore a pale pink crepe de chine.

Miss Carmen Moore wore one of the daintiest of pink gauze gowns, with a touch of black.

Miss Ethel Crellin's gown was a most becoming one of white point d'esprit over tulle.

Miss Florence Hush looked stunning in a pink crepe de chine, accented with white lace, and a pale pink pom-pom and aigrette in her hair.

Miss Frederick Magee wore a handsome white lace gown, which wonderfully suited her.

Miss Kate Chabot wore a beautiful French gown of pale blue satin with lace applique.

Miss Vivia Nicholson looked unusually well in a beautiful gown of green Huel cloth, trimmed with pink roses.

Miss Edith Selby wore one of the prettiest gowns, made simply of white lace, and suit her remarkably well.

Miss Marietta Havens had on the daintiest of white organdie, trimmed beautifully with blue ribbon and violets.

Miss Alice Graves' gown was of white embroidered chiffon over tulle.

Miss Jane Crellin wore an exquisite gown of white net over tulle, trimmed with lace and spangles.

Dancing was enjoyed until a late hour, when refreshments were served. Among the guests were:

## OAKLAND WILL MAKE A FIGHT.

### CITY ATTORNEY WILL TRY TO SUSTAIN THE ASSESSMENT OF THE COUNCIL.

City Attorney Johnson will file a demurrer on Monday next in the Ninth Circuit Court in San Francisco in the case of Everett W. Clark against the city of Oakland and City Treasurer Taylor to test the validity of the increased assessment on property on the corner of Washington and Fourteenth street levied by the City Council sitting as a Board of Equalization.

The grounds on which the demurrer rests is that the City Council acted entirely within its power in levying the increased assessment and that the plaintiff has no just cause for action.

A general demurrer to the suit brought by Clark is made on the grounds that the facts set forth in the complaint, even though they be true, do not constitute a cause for action against the defendants.

Specific demurrers are made to the complaint on the ground that it is ambiguous, unintelligible and uncertain.

Attorney Johnson sets forth that the complaint is uncertain in this: "That it nowhere appears from said complaint how or in any way be ascertained therefrom, what piece or parcel of real property is intended to be described and designated in said complaint."

What it also does not appear from the complaint that the increased assessment violates the uniformity and the equality of the assessment and that the plaintiff is not assessed unequally.

For these and other reasons the action against the city of Oakland is requested to be dismissed.

There are seven suits commenced by property owners pending against the city, but the one brought by Clark will be the test case, the property owners being willing to abide by the decision rendered by the Circuit Court.

## CHINESE THIEF STEALS JEWELS

### When He Was Discovered He Made a Plausible Excuse.

Excuse.

BERKELEY, Jan. 31.—A bold Chinese thief stole some valuable jewelry from the residence of M. M. Brast, 2338 Shattuck avenue, yesterday afternoon. The robbery was a daring one, for while the celestial was discovered in the house by Mrs. Brast, he gave a plausible excuse and succeeded in making his escape.

While Mrs. Brast was engaged in another part of the house, the Chinese entered through the front door. Going to the room of Miss Josie Brast, he took the jewelry from a case on her dresser. The valuables consisted of a gold watch and chain, a turquoise and diamond brooch and several gold rings.

When the thief heard Mrs. Brast approaching he knocked at a door as though he were looking for some one. After inquiring for an address he left the premises. It was not until 7 o'clock that the robbery was discovered and the suspicious actions of the Mongolian explained. He is described by Mrs. Brast as being tall and thin.

During the coming summer a large addition is to be built to the Library of the State University. John Galen Howard, who is in charge of the library, is now at work on plans for the structure which will be circular in shape and attached to the eastern side of the building. It will be set on a hill and will contain 75,000 volumes.

Two children of Charles Sax, who reside in Green and Fulton streets, are ill with scarlet fever. The premises have been placed under quarantine.

## TWO SUMMERS.

### Summer at the Shore and Summer in the Store.

It is sometimes remarked that the requirements of society entail as much hard work upon a woman as she would perform in office or in store. That may be true. The woman who dances the night through may travel more miles than are walked by the woman who milks the counter. Her social obligations may be as exacting as business duties. But if the society woman dances all night, she can sleep all day. If her calls must be duly paid, she has her carriage in which to drive. She is not at the mercy of an

alarm clock in the morning, or of store routine during the day. And, above all, after the round of winter gaieties, there's the sea shore for the summer, with its freedom and its health giving ocean breezes. The chances of health are in favor of the girl that goes to the shore and all against the girl that stays in the store.

SUMMER IN THE CITY is unendurable, says society with its luxurious surroundings. What must summer in a city store be? At the best it is trying to nerves and temper. The long, languid days, the oppressive atmosphere, the monotonous round of duties are all trying. And when to this is added womanly weakness, the condition is well-nigh unbearable. And yet it must be borne for money must be earned if life is to be sustained.

Every working woman owes it to herself to bring her physical health to the highest standard of excellence—not only because it increases her happiness, but also because it increases her earning capacity. It is a cruel fact that the girl who is coupled with the "Pleasant Pellets," which are not to be dispensed with. I took eight bottles of the "Prescription" the last time, making fourteen in all, and will not take any more unless you so advise, for I do not see as I need it.

Have told my friends how I was cured, and have been a little surprised to learn how many of them used Dr. Pierce's Favorite Prescription with great benefit. I have induced several to try and have heard that they were much pleased with results.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

There is no alcohol in "Favorite Prescription," and it is entirely free from opium, cocaine and other narcotics. It is a pure vegetable preparation, and cannot disagree with the most delicate constitution.

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath. "Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

WOMEN WHO WORK will appreciate Dr. Pierce's gift of his book, "The People's Common Sense Medical Adviser." the advice of a neighbor, and followed your advice from April to July. I took five bottles of Dr. Pierce's Favorite Prescription and four of "Golden Medical Discovery" and five vials of "Pellets." Have not had a single symptom of my old trouble so far. Can sleep good nights, work hard, and can eat solid and substantial food without distress. There are several of my friends taking your medicines with the best results since they have seen how they helped me."

WORK IS PLEASURE when you are well and strong; you then go to work with the joy of doing. Dr. Pierce's Favorite Prescription will make you strong and well if your ailments are within the compass of medicine to cure. It establishes regularity, dries the drains that weaken women, heals inflammation and ulceration, and cures female weakness. It cures headache, backache, dizziness and other common ailments. It promotes the appetite, soothes the nerves and induces refreshing sleep.

"I feel it a duty to inform you that I had been suffering for many years from nervousness with all its symptoms and complications," writes Mrs. C. N. Fisher, of 1861 Lexington Ave., New York, N. Y. "I was considering going to see a physician or purchasing medicine for this or that complaint as my troubles became unbearable. In the spring of 1897 my husband induced me to try Dr. Pierce's Favorite Prescription. After taking one bottle and following your advice I was so encouraged that I took five more bottles of 'Favorite Prescription' and I did not take any more for several weeks as I felt so much better, but still I was not completely cured. I commenced taking again and felt that it was improving faster than at first. I am not now cross and irritable, and I have a good color in my face; have also gained about ten pounds in weight and one thousand pounds of comfort, for I am a new woman once more and your advice and your 'Favorite Prescription' are the cause of it. I am coupled with the 'Pleasant Pellets,' which are not to be dispensed with. I took eight bottles of the 'Prescription' the last time, making fourteen in all, and will not take any more unless you so advise, for I do not see as I need it."

## PROFESSOR SCHURMANS SPEECH

The Stockton Mail says Senator Dubois did quite right in calling attention to the speech of Professor Schurman at Boston in which the speaker stated that President McKinley told him it was not his intention to keep the Philippine Islands permanently. There could be no objection to Senator Dubois bringing these remarks before the Senate. The point of the controversy is that Senators Dubois and Teller demanded the punishment of General Wheaton for criticizing the actions and utterances of Senators when in point of fact he had only criticized the remarks of Professor Schurman. What has the Senate got to do with that General Wheaton says about General Schurman?

As to the speech which has stirred up all the rumpus, it was in extremely questionable taste, and was calculated to do serious harm. President McKinley sent Professor Schurman as the head of a commission to investigate and report on the Philippine Islands. During the President's lifetime the investigation was concluded and a report rendered, which was laid before Congress.

Since then President McKinley has fallen by the hand of an assassin. Now Professor Schurman states in a public address the purpose of certain remarks which he says the President made to him personally. These remarks are not contained in any official paper nor embraced in any public speech. The authenticity of the remarks attributed to him cannot be denied, because President McKinley is dead.

For these reasons Professor Schurman's address was in bad taste. Its effect could only be to inflame the natives in the Philippines and to aggravate the situation down there. There is no evidence that President McKinley authorized Professor Schurman to speak for him while living or after death.

But bringing Schurman's remarks before the Senate is no reason why General Wheaton should be drawn and quartered as a malefactor for criticizing these remarks.

## A FRIEND OF THE BIRDS.

Secretary of Agriculture Wilson has shown himself to be a true friend of the birds. In his efforts to benefit the farmers he has had the habits of the various species thoroughly investigated to ascertain whether they aid or injure the agriculturist. Bulletins have been issued embodying the results of these investigations. These bulletins will do much to dissipate the ancient prejudice against birds. They show that a great deal of the damage to crops and fruits ascribed to them is either wholly or partly imaginary. As a rule all classes of birds do more good than harm to the farmers. This of course does not apply to special visitations of certain kind of fowl which are destructive to certain crops.

For instance, geese used to be the terror of the grain growers of the Sacramento Valley, and sometimes the bobolinks would swoop down in myriads on the Carolina rice fields to the ruin of the crop. But these are isolated and exceptional circumstances. In the main birds are the friends of the farmers. Few of them do serious injury, while nearly all perform a valuable service in destroying insects and the larvae of insects. In many localities the increase in insect pests is directly traceable to the killing off of the birds. The many varieties of the so-called parasitic are all valuable aids to orchardists in destroying insect pests. Even the universally despised crow does some good in this direction. Because a bird takes a bite out of an apple or peach or plum the farmer jumps to the conclusion that he lives on fruit entirely and rushes for his gun. In most cases the principal food of the birds is insects, which the farmer desires exterminated, the fruit eaten being a sort of dessert. Thus the farmer kills his real friend and aids his enemy.

The lesson that Secretary Wilson seeks to teach is that the farmer should exercise wise discrimination in the slaughter of birds, for he evidently considered most of the feathered species a help to agriculture, besides being an attractive feature of rural life. To the true lover of nature there is always a company where the birds are, and their presence in woodland and on the farm give life and cheerfulness to the landscape. When the farmer has learned to discriminate the good from the harmful birds, the feathered species will have found a friend and protector in his erstwhile greatest foe. Incidentally agriculture will be benefited and a better knowledge of natural history inculcated.

## OUR MAGNIFICENT CAPITAL.

Ere long Washington will have the finest collection of Government buildings of any capital in the world. When the White House has undergone the proposed alteration and the proposed building for the Agricultural Department building is erected, the collection will be one to command admiration from all beholders. The Capitol, the National Library, the Patent Office, the Smithsonian Institution, the National Observatory, the Pension Office, the Treasury building, and the War and Navy

Department building are all splendid structures of this kind, and are fittingly supplemented by the numerous splendid monuments which are grouped around. The whole is set off by the lofty shaft that commemorates Washington.

The new Agricultural building will be a triumph of modern architecture. It will be 500 feet long and five stories high, built of marble in the Roman style. It will be the most thoroughly equipped building of its kind in the world. The estimated cost is \$2,000,000.

In all likelihood the creation of the new Cabinet department of commerce and industry will be followed by the erection of a splendid building to house it and its working force. It will call for the establishment of a museum and other special features illustrating the commerce and industry of the American nation.

In this connection the splendid array of schools, colleges and universities that Washington presents must not be overlooked. They bear their part in making Washington the finest capital of the greatest nation the world has ever seen.

## ORDERS TO SUPPRESS

## A PICKLE FACTORY.

The Ordinance and Judiciary Committee last night recommended that the chief of police be instructed by the Council to take measures to suppress the pickle factory of R. Frank, corner of Twenty-third and Grove streets, under Ordinance No. 1736, which provides that no person shall engage in the business of manufacturing of pickles in the city in that portion bounded on the north and east by Third street and West Third street, Lewis street, West Third street and the northern line of the lands of the Central Pacific Railroad Company, and the western prolongation of the same.

The penalty for violating this ordinance is \$500.

who live in the immediate vicinity. They filed a written protest against the ordinance of the pickle factory, alleging that it was a nuisance. The petitioners stated that the odor and chimney dust from the factory made it impossible to open windows of houses in the immediate vicinity. It was further alleged that refuse from the factory were dumped into an adjoining yard, causing much annoyance.

The committee recommended that the ordinance amending the title of an ordinance regulating municipal licenses be indefinitely postponed.

DUNN AND WILSON  
GO TO STATE PRISON.

Frank Dunn and James W. Wilson, who were yesterday sentenced to the penitentiary for four and five years respectively, were today taken to their respective places of confinement. Dunn went to Folsom and Wilson to San Quentin. The former's crime was that of trying to break jail at the City Prison. With a saw made of a butcher knife he cut a small hole in the window bars, and as he tried to crawl through he became fast. He was removed by the jailers, who were attracted by his cries.

"I'd rather be in Folsom prison than in the black hole under the City Hall. Nothing is so bad as that it can be worse," he remarked cheerfully as he left the County Jail.

Wilson, who was sentenced for trying to break jail at the City Prison, was taken to Folsom.

"If I'd known I was going to get four years," he said, morosely, "I wouldn't have pleaded guilty."

### HEAVY WORK IN

### WATER RATE CASE.

The task of cutting out the vital matter in 4,000 pages of testimony is the largest ever undertaken by the City Attorney's office, and ranks with the many of the great law suits in the State, which have become famous for their length.

There remain 4,000 pages of testimony to be worked out into the form of a bill of exceptions.

## NEW SECRETARY IS INTRODUCED.

EDWIN STEARNS WILL WORK  
HARD IN THE INTEREST  
OF OAKLAND.

Edwin Stearns, the newly elected secretary of the Board of Trade, has arrived and is a guest at the Hotel Metropole. He is favorably impressed with the beauty and resources of Oakland. Speaking on this subject, Mr. Stearns says: "The possibilities that I see about here are unlimited, but the people do not seem to fully appreciate the importance of that fact. There is that beautiful lake set in the very center of the city, which is more wonderful in itself than anything in Los Angeles."

"One of the things we must secure is a good crop of tourists. There is nothing pays so well and there is nothing that builds up a city with such rapidity. To get tourists you must advertise. Tell people that Oakland is as beautiful and as healthy a place as any spot on the coast, and let everybody join in saying a good word for the city. That is what will start the procession. There are untold resources in the harbor you have, and I see no reason why they cannot be made use of. Including I mention that Los Angeles has no harbor."

"With the harbor there should be manufacturing and shipping. The former is productive of the latter, and commerce means people; people with money and money to invest in a good proposition. That is all that is needed. We need money and new blood. What we need is a little spring medicine to start the circulation."

## KELLEY'S MAN TAKES CHANCES.

ELMHURST, Jan. 31.—Through the ignorance and carelessness of W. E. Ross, receiver at the local power house, there came near being an accident the other night which would have endangered the lives of sixteen people.

Last Tuesday night Receiver Ross took an extra car from the power house and started for Oakland. Not being a motorist, he was not understanding the car, Ross neglected to turn on his headlights. At a point between Seminary avenue and this place, where the track changes to a single track, Ross was still going along at a great speed, all unmindful that he was not running on schedule time and at any moment might crash into an outgoing car.

As the receiver neared Joe Dives' old place he saw a light ahead and slowed down, at the same time turning on his headlights. The light came from too soon. It showed J. L. Sill, the motorist of the regular car, what was ahead and in an instant life reverse was thrown on. The quick work of Motorist Sill was such that prevented what might have been the most serious accident in the history of the road. As it was, the two cars came to a standstill within a length of each other, while the frightened passengers rushed out to ascertain what had caused the sudden stop.

By as many as ten eye witnesses of the affair all declare that Motorist Sill of the regular car was not to blame. He is one of the most trusted men in the employ of the Transit Company and has always shown the greatest care in operating his car, while Ross, who is only a receiver of the power house and not experienced in handling the cars, took great risks when he went on the single track with his light out and knowing that at any moment he might meet an out-going car.

To make matters worse, Sill, upon his return to the power house that night, was openly "called down" by Receiver Ross for what the receiver termed neglect of duty. In the presence of a crowd of employees, Ross called Sill names. Naturally indignant at such injustice, Sill would have resented the insult had the men not interfered.

Pending the official investigation, Motorist Sill will say nothing about the matter, but passengers who witnessed the affair are loud in their praise of his ready action in preventing an accident.

## REVIVES AN OLD SUIT AGAINST CHARLES MAUTALEN.

An old suit against Charles Mautalen which is of five years standing has been revived in Justice Steison's court. It appears that five years ago W. J. Henderson, at that time a musician, brought suit against Charles Mautalen, then chairman of the County Central Committee, for \$10 for band music furnished by Henderson during a campaign. At the time the action was brought the musician was given judgment upon default of the defendant, who at the time was in Sacramento. When the first action was brought Mautalen claimed the account should be settled by the committee, but the musician alleged the contract had been a personal affair between him and the chairman.

## M'CARTHY WINS THE FIGHT.

RATTLING CONTEST IN THE  
BUILDING TRADES COUNCIL  
ACROSS THE BAY.

SAN FRANCISCO, Jan. 31.—P. H. McCarthy has won his fight for president of the Building Trades Council in San Francisco.

Last night the annual election was held and a hurricane battle was put up against the Civil Service Commissioner, L. Danforth, a paper hanger, was put in the fight against him and both sides flung their forces down all over the city.

It was declared that Mr. McCarthy devoted too much time to politics. His enemies poured hot shot into Mack's camp, but he rallied in great style. A large delegation from Oakland was in attendance to help Mack out.

A secret ballot was ordered. When each delegate's name was called he went forward and deposited his ballot. When the count was made it was found that McCarthy had 91 votes and Danforth 41 votes.

McCarthy was declared elected. The other officers elected were: O. A. Veinmo, recording secretary; H. Thayer, financial secretary; John E. McDougall, treasurer; Harry Saunders and Louis Chester, business agents.

## SHE POKED FOOD INTO HIS MOUTH.

Judge Ogden this morning overruled the demurrer of Mrs. Emma Maria Bryan, who is being sued for divorce by John T. Bryan on the ground of extreme cruelty. The complaint set forth that Mrs. Bryan had treated her husband's relatives in a cruel manner; that she had, during fits of rage, scratched his face, drawing the blood; that at other times she amused herself by feeding him when he was ill, pushing food into his mouth until he almost choked. Mrs. Bryan demurred to the complaint.

## ANOTHER GIRL CHASED BY JACK

The Livermore Grove will initiate over forty candidates tonight. The initiation will be followed by a banquet.

## MISS HELEN SMITH HAS AN EXCITING EXPERIENCE WITH A STRANGER.

Despite the fact that three arrests have been made of the assailants of unprotected women and girls, "Jack the Secret" seems to be still engaged in his nefarious work. Last night while 15-year-old Helen Smith, residing at 555 Nineteenth street, was returning from a neighboring grocery store shortly after 6 o'clock, she encountered a thick set fellow who attempted to clutch her dress. The little girl eluded his grasp and fled homeward. The would-be assailant followed her closely until the girl met a woman friend, who gave the alarm by screaming. The stranger disappeared rapidly into a side street. The girl's elder sister, Miss Bessie Smith, notified the police, and detectives were detailed to scour the neighborhood let once, but were unable to catch the man. The police state there will be no relaxation in the search for the individuals who have been smothering and insulting the women and girls of this city for the last fortnight.
